

Vacuum system for dead fish Euskan VS 2000

Model:	VS 2000
Tank capacity:	2000 L
Max. Suction height:	9 m
Max. Pressure height:	18 m
Compressor:	Samson KS625 37 kW – 50 Hz
Power Supply:	3 x 400 V 50 Hz
Water Supply:	20 l/min, 2 bar
Capacity:	180 m ³

Commentary:

Vacuum tank in stainless steel with 12'' (300 mm) in- and outlet with non-return valve. The in- and outlet is designed with "easy change of flapper system" for quick inspection/ changing of the flapper valves.

The tank has lower and upper level sensor for automatic control of filling and emptying.

Flow-watch for controlling supply water with automatic shut down by cooling supply water failure.

Control panel with full PLC, touch screen with changeable language, user menu can set up the work of the vacuum pump.

Closed hydraulic power pack for controlling all valves.

The vacuum system is CE-approved

Advanced options:

- Wireless remote control with the following functions: Start, Stop, Standby.
- Quick couplings on in- and outlet.
- Double operation kit (for parallel operation of 2 vacuum systems).
- Upgrading from 12'' (300 mm) to 14'' (350 mm).
